

# BOTOX<sup>®</sup> Cosmetic

*BOTOX<sup>®</sup>*  
—Cosmetic  
*onabotulinumtoxinA*

Discover the real, noticeable results.

**BOTOX<sup>®</sup>** is a prescription medicine that is injected into muscles to temporarily **improve the look** of moderate to severe **wrinkles** between the eyebrows, across the forehead and at the corners of the eyes..

It works by **blocking nerve impulses** to the injected muscles, thus reducing muscle activity that cause lines to form.

**BOTOX<sup>®</sup> Cosmetic can give you real, noticeable results.**

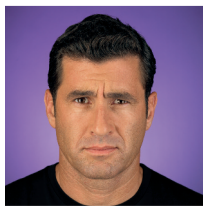

Seeing Results.

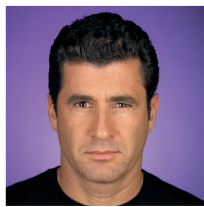

BEFORE

DAY 14

BEFORE

DAY 7

Within 24 to 48 hours you may notice a **softening in the appearance of your wrinkles**. The area may continue to improve for up to a month. **Results have shown to last up to four months**. Your own results may vary.

For more information or to make an appointment, call **717.724.3837**.

# Frequently Asked Questions about BOTOX® Cosmetic

## **Will I still be able to make facial expressions?**

Although results are visible, a treatment with BOTOX® Cosmetic will not radically change your facial appearance. The muscle activity is temporarily reduced, so you can still frown or look surprised without wrinkles and creases.

## **Is treatment with BOTOX® Cosmetic painful?**

Discomfort is usually minimal and brief. Prior to injecting, you may have the area numbed with a cold pack or anesthetic cream.

## **Will I have any downtime?**

Most patients experience no downtime following the treatment.

## **Will a treatment affect my skin color or texture?**

Men and women of varying ethnicities and skin types have been successfully treated with BOTOX® Cosmetic. Because it works only on the underlying muscles, there is no concern of it affecting your skin color or texture.

## **Is there anything I need to tell my doctor?**

Your doctor should be informed of all your medical conditions. If you have a disease that affects your muscles and nerves, you may be at increased risk of serious side effects.

Also tell your doctor if you had or plan to have surgery on your face or are pregnant or about to become pregnant.

## **How do I know if BOTOX® Cosmetic is right for me?**

After a consultation, your healthcare provider will determine which wrinkle-reducing treatment is best for you.
