

Juvéderm® XC

 Juvéderm® XC

Experience Smooth Comfort.

Juvéderm® XC is a more comfortable way to **smooth out the lines** along the sides of your nose and mouth.

Young, healthy-looking skin contains an abundance of a naturally-hydrating substance called **hyaluronic acid (HA)**. But as you age, time, sunlight, and other factors can reduce the amount of HA in your skin.

The lack of HA causes your skin to lose structure and volume—creating unwanted facial wrinkles and folds, like those **“parentheses” lines** around your nose and mouth.

Juvéderm® XC helps replace the HA your skin has lost, adding volume with **only one treatment**.

Seeing
Results.

BEFORE

AFTER 2.5 SYRINGES

BEFORE

AFTER 2 SYRINGES

Juvéderm® XC is an injectable gel eased under your skin to quickly smooth out wrinkles and folds, producing **natural-looking results** with improved comfort that lasts up to one year.

You will see the difference instantly!

Chin Wrinkles

Am I a candidate for Juvéderm® XC?

Juvéderm® XC has been tested on both female and male patients and all skin types—so everyone can enjoy the benefits.

How do I know what will work best for me?

After a consultation, your healthcare provider will determine which formula is right for you.

Is a Juvéderm® XC treatment painful?

Juvéderm® XC is formulated with lidocaine, a common anesthetic, to provide a more comfortable experience during and after the treatment.

Will I have any downtime?

You can experience Juvéderm® XC injectable gel with an in-office procedure and minimal downtime.
